## - LIVE Introduction Bullet Points

-----

### **Little Boy Wonder Music & Flaydo Music, Recording Artist**

- Born and raised in Middletown, New Jersey, Bryan Popin was first introduced to his signature instrument, the piano, at age 5. His mother, a choir director at a local church, was the source of his immediate interest in spiritual hymns, classical piano and soulful music.
- A piano protégé by his early teens, the legendary singer Stevie Wonder gave him the nickname, "Little Boy Wonder."
- With songs like I CAN MAKE IT, SUCH A TIME AS THIS, AWESOME GOD and most recently I GOT OUT, Popin continues to impress with his songwriting, keyboard skills and vocal flow.
- "I GOT OUT" the Album, released on July 21, 2017 under his new imprint record label Little Boy Wonder Music, garnered Popin his first #1 on Billboard topping the sales charts in both the Top Christian and Gospel Album categories!
- His latest single "I GOT OUT" is bringing back that old-school church choir sound and is currently Top 5 on the Billboard Gospel Radio Chart and continuing to climb.
- Popin has appeared numerous times with Bishop TD Jakes, featured at both MegaFest and Bishop Jakes' Pastors & Leader's Conference, and performed his timely single, "Such A Time As This" on Tye Tribbett's TV show "Joyful Noise" airing on BET.
- He's written with R&B legend Chaka Khan, opened for Tye Tribbett, Israel Houghton, Deitrick Haddon, Tasha Page-Lockhart, Jermaine Dolly, Donnie McClurkin, Marvin Sapp and others. At the height of their popularity, Justin Timberlake's \*NSYNC recorded 1 of Popin's songs for their multi-platinum album Celebrity and performed the song during their final stadium tour.
- Experiencing both the height of fame and prosperity, yet also learning to deal with the lows and heartache of financial hardship, rejection, personal drought and his own insecurities, Popin has had to learn to trust and rely on his faith and spiritual upbringing. AND most always... a prophetic song was birthed through each season.
- "I GOT OUT" the \*Deluxe Edition Album is now Available exclusively at Walmart, iTunes, Google Play, Amazon Music and everywhere digital music is sold.
